INSTRUCTIONS TO PUPILS

- 1 Do not turn over the pages until you are told to do so.
- 2 Follow all instructions carefully.
- 3 Answer ALL questions.

,

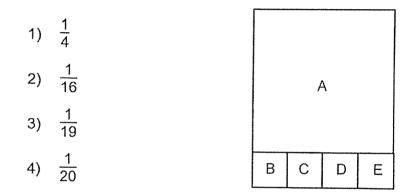

- 4 Shade your answers in the Optical Answer Sheet (OAS) provided.
- 5 You are <u>not</u> allowed to use a calculator for this paper.

This question paper consists of 8 printed pages (inclusive of cover page).

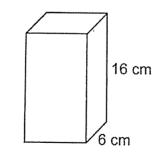

Questions 1 to 10 carry 1 mark each. Questions 11 to 15 carry 2 marks each. For each question, four options are given. One of them is the correct answer. Make your choice (1, 2, 3 or 4) and shade your answer (1, 2, 3 or 4) on the Optical Answer Sheet (OAS). (20 marks)

- 1. Express 12 tenths as a decimal.
 - 1) 0.012
 - 2) 0.12
 - 3) 1.2
 - 4) 12.0
- 2. Round 51 872 to the nearest thousand.
 - 1) 50 000
 - 2) 51 000
 - 3) 51 900
 - 4) 52 000
- 3. Find the value of $\frac{4}{5} \div 2$. 1) $\frac{5}{8}$ 2) $\frac{2}{5}$ 3) $1\frac{3}{5}$ 4) $2\frac{1}{2}$

- 4. The average length of Ribbon A and B is 48 cm. The total length of Ribbon C and D is 56 cm. What is the average length of the 4 pieces of ribbon?
 - 1) 26 cm
 - 2) 38 cm
 - 3) 52 cm
 - 4) 76 cm
- 5. The figure is made up of 5 squares A, B, C, D and E. What fraction of the figure is Square D?

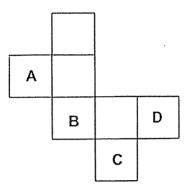

6. What is the volume of a cuboid that has a square base of side 6 cm and height 16 cm?

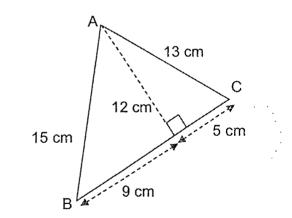

- 1) 96 cm³
- 2) 216 cm³
- 3) 576 cm³
- 4) 1536 cm³

7. Kenny wanted to fold the net below to form a cube. However, he realised that the net is incorrect. He has to remove one of the faces, A, B, C or D, from it to form the cube.

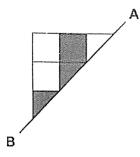

Which of the following letters representing the face that he has to remove from the net?

- 1) A
- 2) B
- 3) C
- 4) D
- 8. Find the area of triangle ABC shown below.

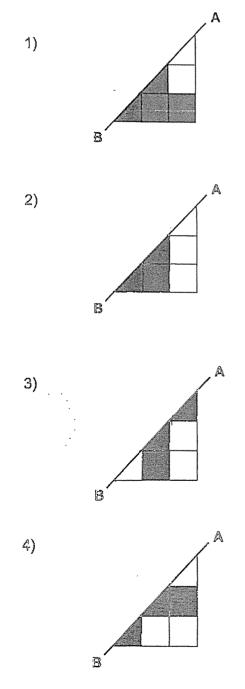

- 1) 30 cm²
- 2) 65 cm²
- 3) 84 cm²
- 4) 90 cm²

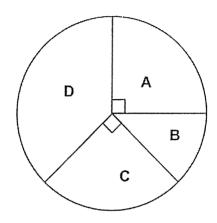

9.

Half of a symmetric figure is shown above. AB is the line of symmetry. Which of the following completes the symmetric figure?

10. The pie chart shows the number of four types of buns sold by a shop in a day.

Which of the following tables below <u>best</u> represents the information in the pie chart?

1)

.

Types of	Number of
buns	buns sold
A	60
В	90
С	90
D	120

2)

Types of buns	Number of buns sold
A	90
В	120
С	90
D	60

3)

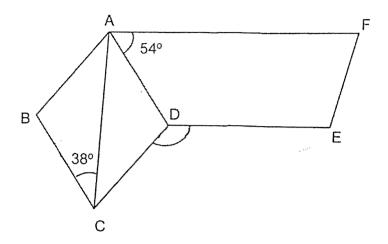

Types of	Number of
buns	buns sold
· A	80
В	40
С	80
D	70

4)

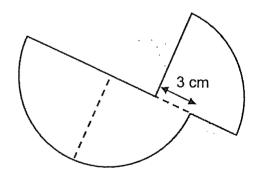

Types of	Number of
buns	buns sold
A	80
В	40 .
С	80 .
D	120

•

11. In the figure below, ABCD is a rhombus and ADEF is a trapezium. AF is parallel to DE. \angle BCA = 38° and \angle DAF = 54°. Find \angle CDE.

- 1) 92°
- 2) 120°
- 3) 130°
- 4) 163°
- 12. The figure below is made up of three quarter circles of radius 7 cm. Find the perimeter of the figure. Take $\pi = \frac{22}{7}$.

- 1) 36 cm
- 2) 47 cm
- 3) 55 cm
- 4) 66 cm

- 13. Joshua used a calculator to multiply a 4-digit number by a 1-digit number. For the 1-digit number, he mistakenly pressed 2 instead of 3. He got the incorrect answer of 4296. What should the correct answer be?
 - 1) 1432
 - 2) 2148
 - 3) 2864
 - 4) 6444
- 14. There are red, blue and yellow pens in a box. The ratio of the number of red pens to blue pens is 2 : 3. The ratio of the number of yellow pens to the total number of red and blue pens is 5 : 6. What fraction of the pens in the box are blue pens?
 - 1) $\frac{3}{5}$ 2) $\frac{3}{11}$ 3) $\frac{18}{55}$ 18
 - 4) $\frac{18}{67}$
- 15. A van travelled 240 km at a speed of 80 km/h. A car took $\frac{1}{2}$ h less than the van to travel the same distance. How long did the car take to cover the same distance?
 - 1) $\frac{1}{3}h$ 2) $2\frac{1}{2}h$ 3) 3h4) $3\frac{1}{2}h$

End of Booklet A

	PRELIMINARY EXAMINATION (2022)	
	PRIMARY 6	
	MATHEMATICS	
	PAPER 1	
	Booklet B	
Friday	19 August 2022 1 h	
Name:	() Class: 6.()	
1.	TRUCTIONS TO PUPILS Do not turn over the pages until you are told to do so.	
ı. 2.	Follow all instructions carefully.	
3.	Answer ALL questions.	
4.	Use a dark blue or black ballpoint pen to write your answers in the space	
	provided for each question.	
5.	Do not use correction fluid/tape or highlighter.	
6.	The use of calculators is NOT allowed.	

、、

٩.

ş

	,		
	16.	Find the value of 98 – 3 x (17 – 3).	
		Ans :	
the margin.	17.	Find the value of 70 + $\frac{7}{10}$ + $\frac{7}{1000}$.	
Please do not write in the margin.		Give your answer as a decimal.	
Please do		Ans :	
	18.	How much water is in the container? Give your answer in millilitres.	

ACSJ

ACS J ACSJ Questions 21 to 30 carry 2 marks each. Show your working clearly and write your answers in the spaces provided. For questions which requires units, give (20 marks) your answers in the units stated. Express y + 11 + 7y - 9 - 3y in the simplest form. 21. (a) Please do not write in the margin. Please do not write in the margin. Ans : (a)_____ Find the value of $3w + \frac{w}{5}$ when w = 8. (b) Ans : (b)_____ Jamie paid \$63 for a bag and 2 pencil cases. The price of a pencil case 22. was $\frac{2}{5}$ the price of the bag. How much did Jamie pay for the bag? Ans : \$_____ Sub-Total : B4

23. The square grid below shows the plan of the amenities in a condominium.

•	Swimming Pool			
Cafe		Playground		
			Fitness Corner	
	Multi- Purpose Hall			

(a) In what direction is the fitness corner from the playground?

Ans : (a)_____

A C S J

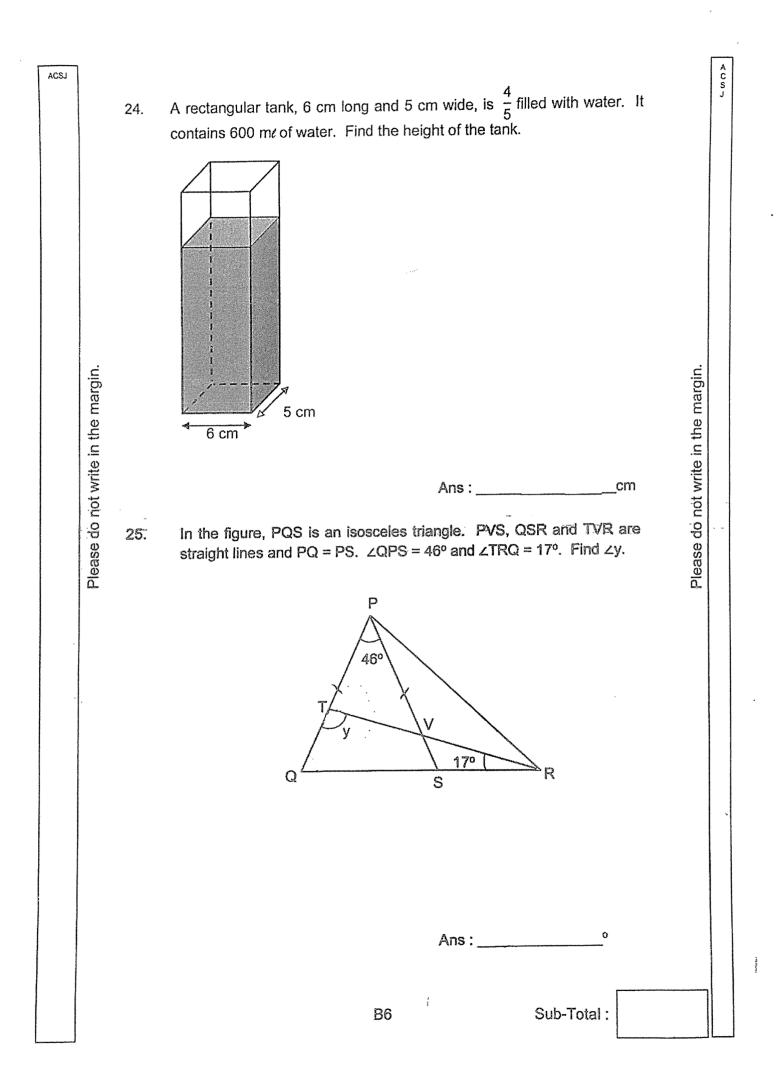

Please do not write in the margin.

N

(b) The management committee wants to place a chess table in the condominium. The location of the chess table is to be south of the cafe and north-west of the multi-purpose hall. Put a tick ($\sqrt{}$) in the square where the chess table will be placed.

B5

Please do not write in the margin.

26. Books in a school library are grouped according to the following four types: Humour, Fantasy, Adventure and Mystery. The pie chart represents the number of books of each type in the school library.

There are 150 more books of the Mystery type than books of the Humour type in the school library. How many books of the Adventure type are there?

B7

Ans : _____

Please do not write in the margin.

A C S J

Sub-Total :

Please do not write in the margin.

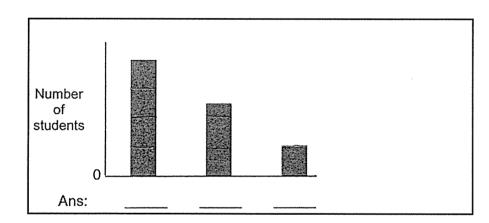

ACSJ

27. Students joined only one co-curricular activity (CCA) in school – art club, rugby or swimming. $\frac{1}{3}$ of them joined swimming. The number of students who joined art club was $\frac{1}{4}$ of the number who joined rugby.

A C S J

Please do not write in the margin.

The bar graph represents the number of students who joined each CCA. Label the bar graph by writing **R** for rugby, **A** for art club and **S** for swimming in the blanks below.

B8

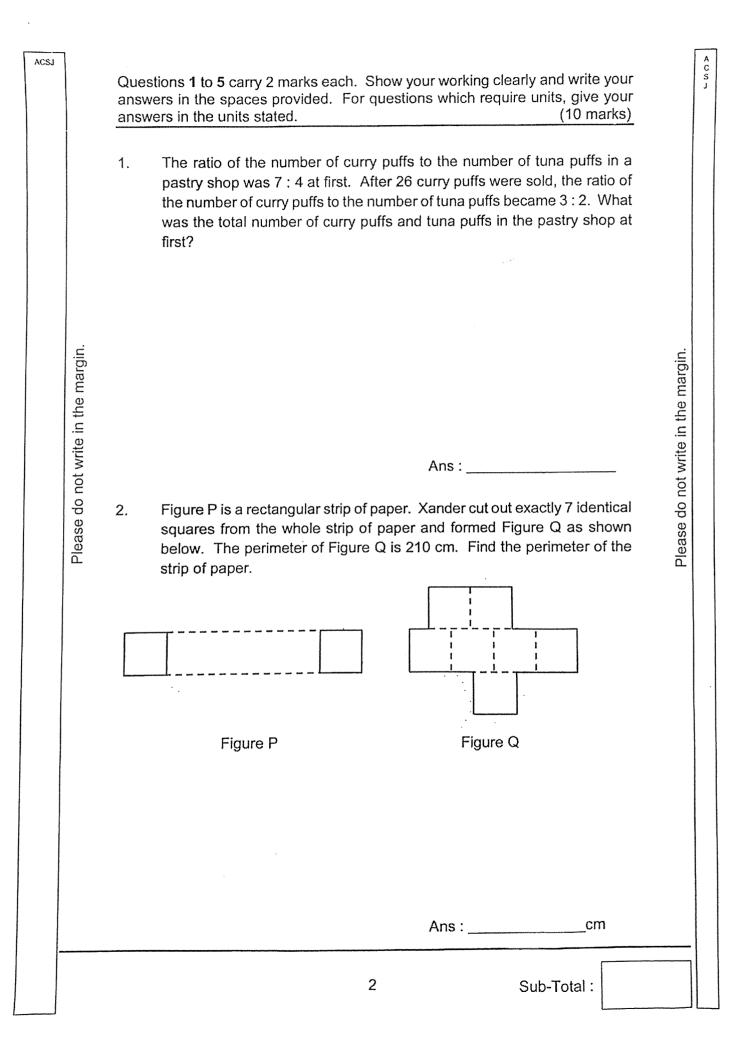

Sub-Total :

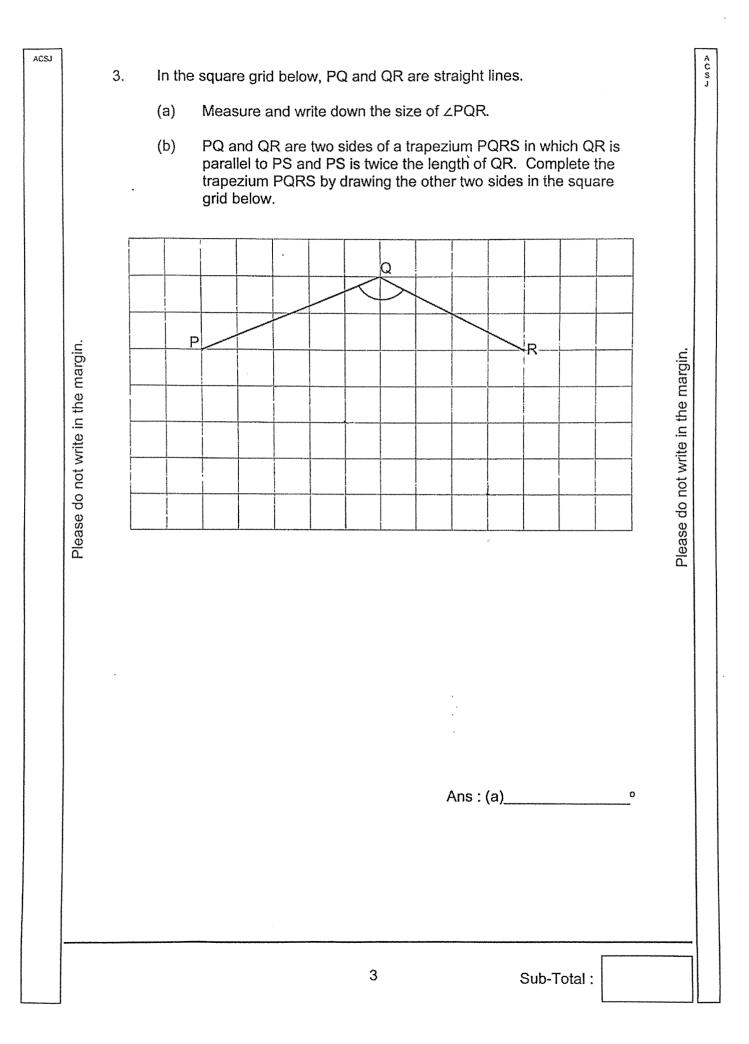

Please do not write in the margin.

A C S J AC,53 Jonathan was given a fixed amount of pocket money each month. In 30. July, he spent \$80 and saved the rest. In August, he spent 10% less and his savings increased by 20%. How much was Jonathan's pocket money for each month? Please do not write in the margin. Please do not write in the margin. Ans : \$_____ End of Booklet B Sub-Total : B10

Miss Koh had a bag of flour. She used an equal amount of flour each 4. day to bake bread. At the end of 8th day, $\frac{2}{5}$ of the flour was left. At the end of 10th day, the amount of flour left was 1.2 kg. How many kilograms of flour did Miss Koh have at first?

> Ans: kg

A player has to play a total of four games in Round 1 of a competition. 5. The scores for Ahmad's first three games are shown below.

		Round 1		
Game	1st	2 nd	3rd	4 th
Score	31	26	28	?

Ahmad will qualify for Round 2 if his average score for three of the four games is 32 or more. What is the lowest score Ahmad must get in the 4th game to qualify for Round 2?

4

Ans : _____

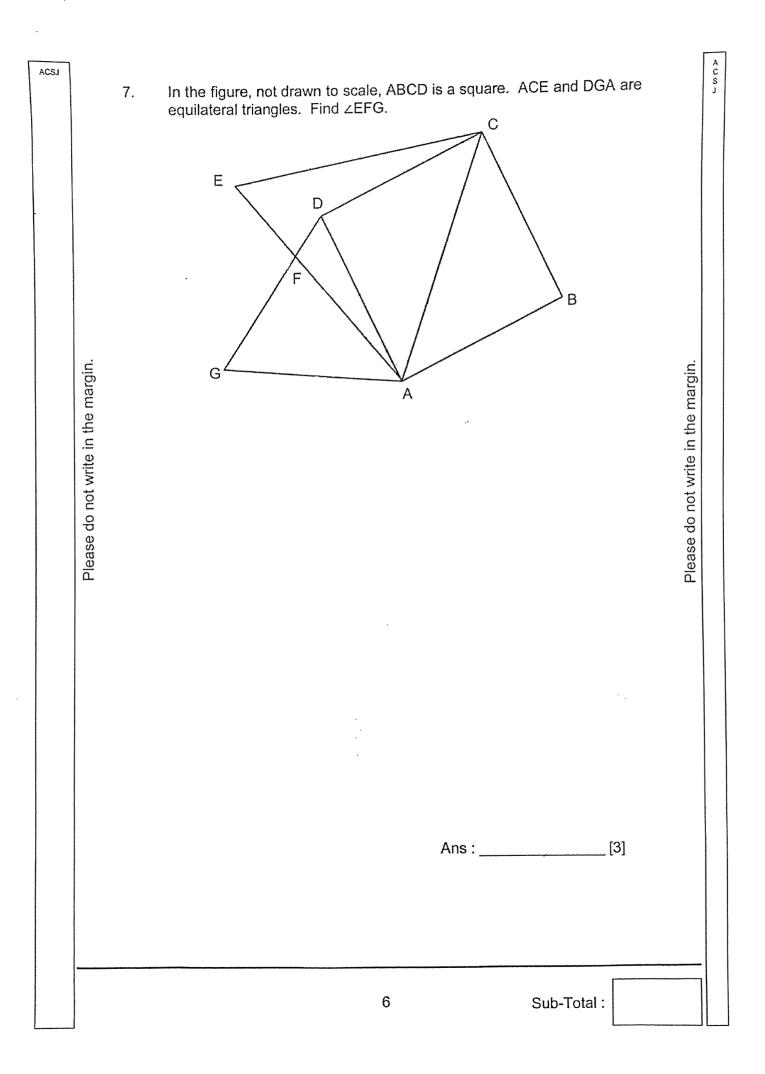

Please do not write in the margin.

みんらり

Sub-Total:

Please do not write in the margin.

	6.	Gera more	ld, Leon and Ali went for a jog. Gerald ran y km. Leon ran 3 km than Gerald. Ali ran twice as far as Leon.
		(a)	Express the total distance the three boys ran in terms of y.
Please do not write in the margin.		(b)	Ans : (a) The three boys ran a total of 53 km. Find the value of y.
			·

8. Four children played a game during recess. They had to throw as many balls into a basket within a given time. 3 points were awarded for throwing each ball into the basket and 1 point was deducted for each ball missed. The table shows the number of balls thrown into the basket and missed by three of the students.

Student	Number of balls			
	Thrown into basket	Missed		
A	30	8		
В	29	4		
C	32	16		

(a) Which of the three students scored the most number of points? What was the student's points?

Ans : (a) student :_____

Points: _____ [1]

A C S J

Please do not write in the margin.

(b) Student D threw the same number of balls as Student A but obtained 16 points more. How many balls did student D toss into the basket?

7

Ans : (b) _____ [2]

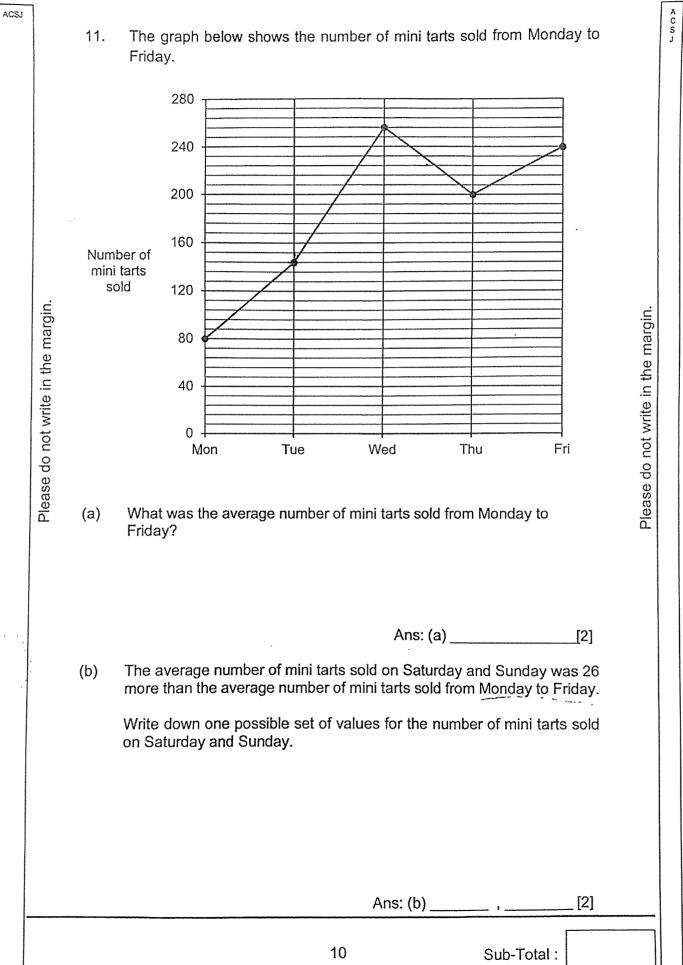

Sub-Total :

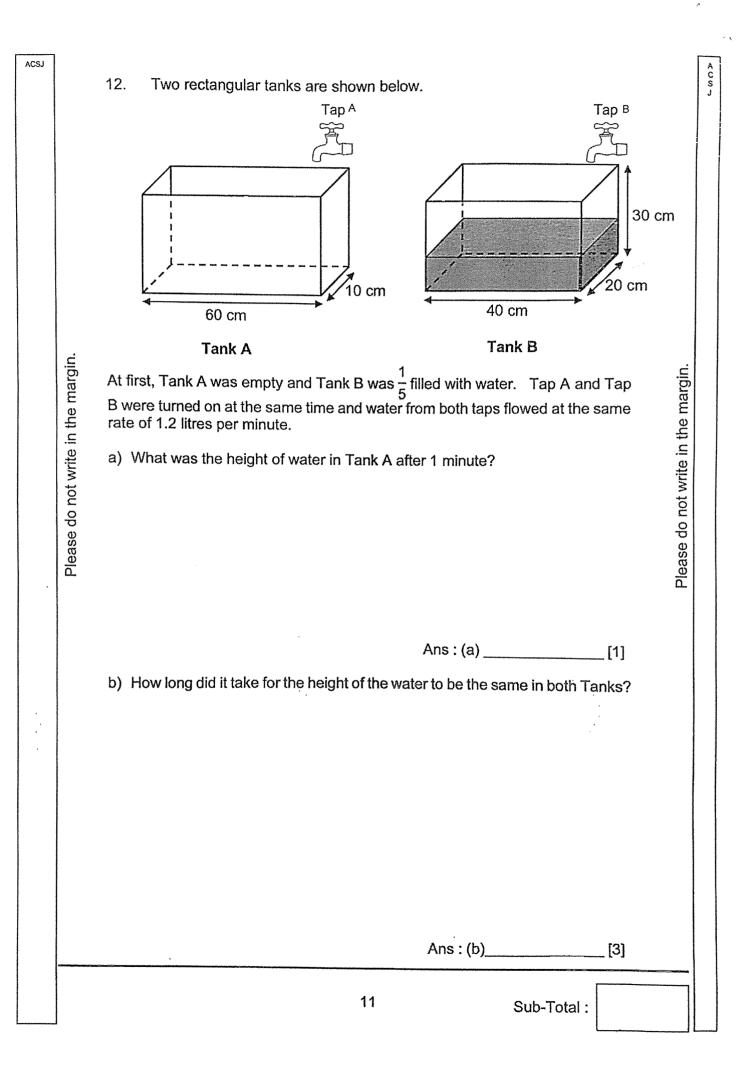

Please do not write in the margin.

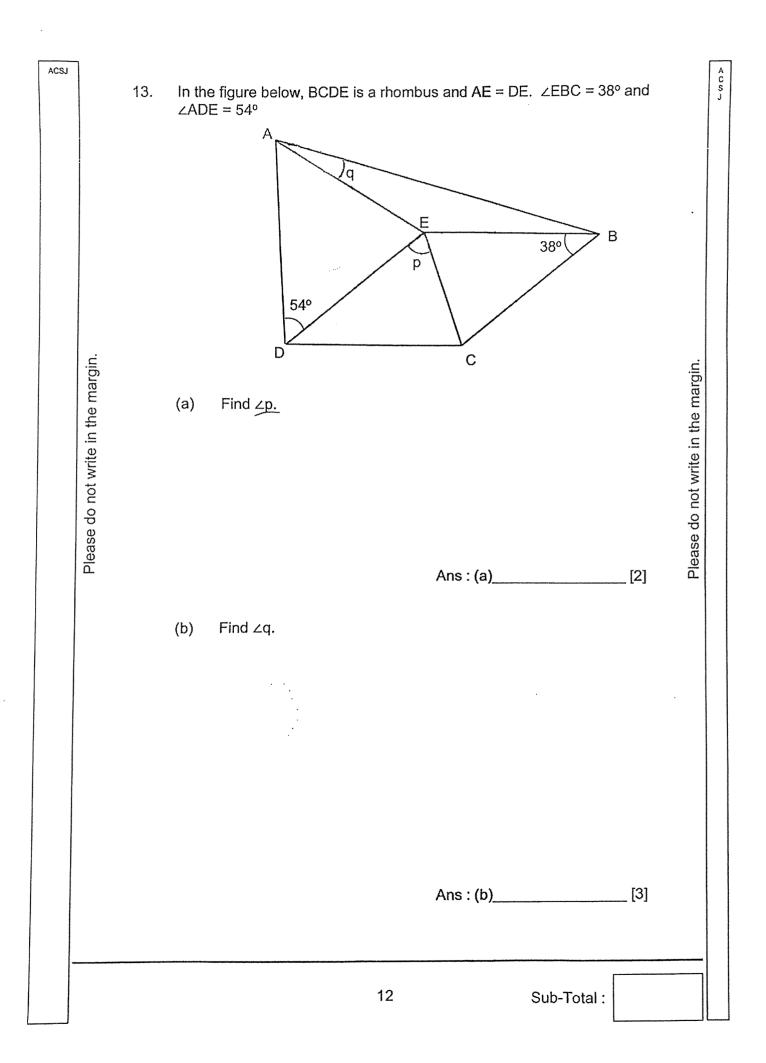

ACSJ

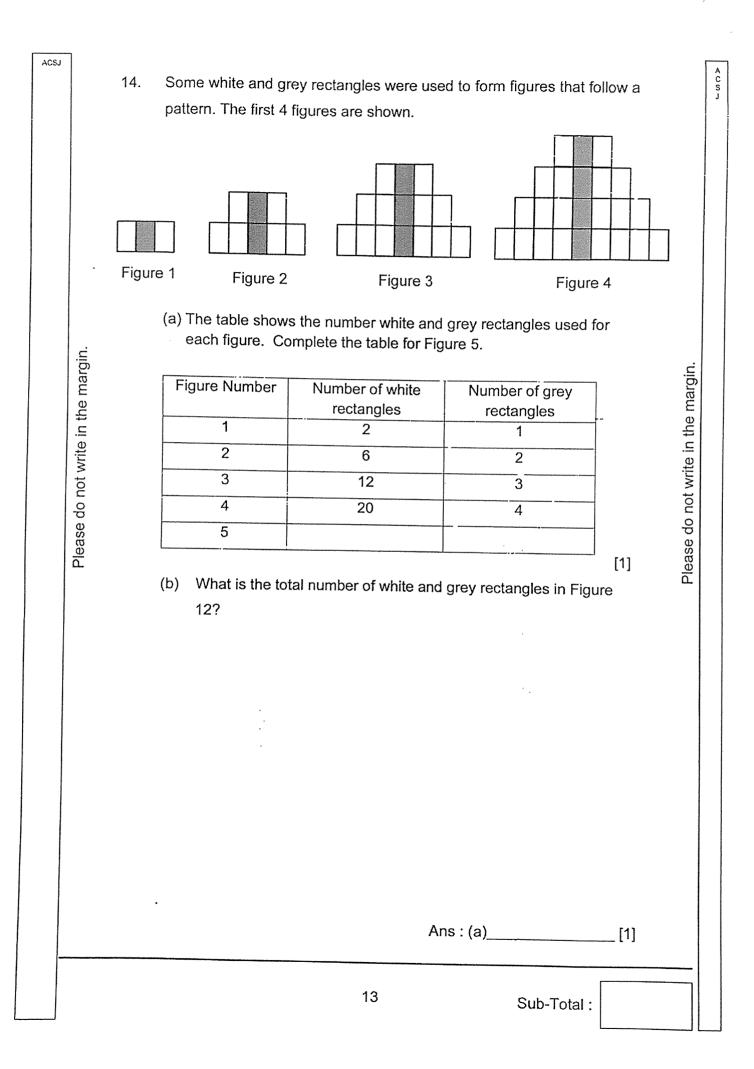

A C S J ACSJ Mr Fam wanted to buy T-shirts for his workers, He asked them to choose 9. one colour from yellow, blue and purple for the T-shirt. The results are shown in the graph below. Yellow Blue Purple Please do not write in the margin. 42 48 6 12 18 24 30 36 Please do not write in the margin. 0 Number of workers How many workers were there altogether? (a) Ans : _____ [1] Mr Fam paid a total of \$384 for the Tshirts. The costs of Yellow, (b) Blue and Purple T-shirts were in the ratio of 2:1:1. How much did Mr Fam pay for all the Purple T-shirts? Ans :_____[2] 8 Sub-Total:

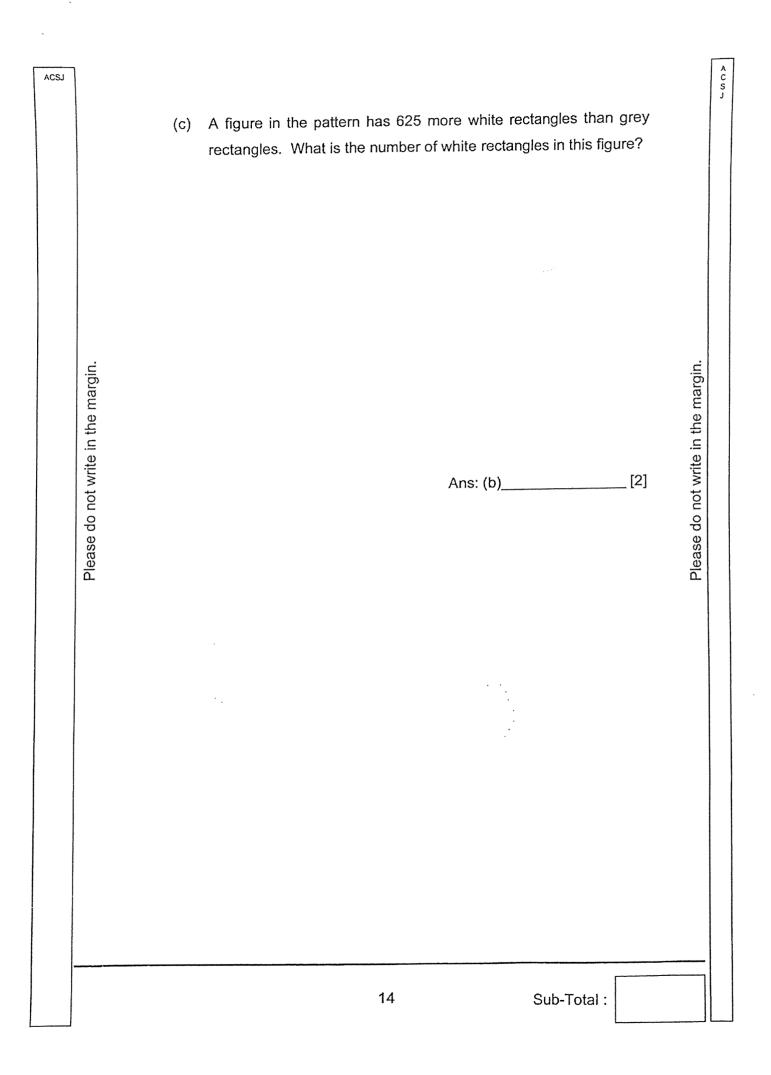

ACSJ A C S J 10. Ron and Harry started running in opposite directions on a running trail. Ron ran at a speed of 110 m/min. At the end of 15 minutes, they were 3525 m apart. Find Harry's running speed in m/min. Please do not write in the margin. Please do not write in the margin. Ans : _____ [3] 9 Sub-Total :

ACSJ	15.	beac	Tan had a box of green, blue and red beads. She had 248 green ds. 30% of her beads were blue. She had 24 fewer red beads than beads.	
		(a)	What was the total number of beads she had in the box?	
Please do not write in the margin.		(b)	Ans : (a) [2] Mrs Tan's son bought her some blue beads. Her total number of beads then increased by 25%. How many blue beads did she have in the end? Ans : (b) [2]	Please do not write in the margin.
			15 Sub-Total :	

A C S J 16. James used $\frac{1}{4}$ of his money to buy 3 pencil cases and 7 key chains. The cost of each pencil case is 3 times the cost of each key chain. He bought some more key chains with $\frac{5}{6}$ of his remaining money. He spent \$30.40 more on all the key chains than on all the pencil cases. How much was the cost of one key chain?

Q15a $40\% = 248 - 24 = 224$ $10\% = 224 \div 4 = 56$		
$10\% = 224 \div 4 = 56$		
	Q15a	
$100\% = 56 \times 10 = 260$		
	Q15B	
= 140		= 140
In the end= $(56 \times 3) + 140 = 308$		In the end= $(56 \times 3) + 140 = 308$
	Q16	
2units = 9+7 = 16		
$4 - \frac{1}{2} + \frac{1}{2} - \frac{1}{2} = 0$		1 unit = 16/2 = 8

BP~40

	$7 \text{ units} = 8 \times 7 = 56$		
	Keychain= $56-9 = 47$		
	More 47-9= 38		
	38 keychains = \$30.40		
	1 Keychain = \$0.80		
17	$1 - \frac{7}{5} = \frac{5}{5}$		
	$1^{-}2^{-}12^{-}$		
1	$65 \text{ cm}^2 = \frac{5}{12}$		
	$\frac{-}{12} = 65 \div 5 = 13$	1. 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 1997 - 19	
	Total Area= 13 ×12 = 156cm ²
